

# K-12 EFFICIENCY

## IT'S CLEAR...

Schools and school districts suffer from unprecedented budget pressures, with extremely limited capital to fund energy efficiency projects.

Too many schools, with aging, inefficient facilities face a backlog of increasingly-urgent deferred maintenance projects.

With rising utility prices—and the potential for 30%+ cost savings—budget-neutral energy efficiency projects appeal as a district strategy to modernize facilities and improve school learning environments for teachers and students.

*TEN's projects help modernize school facilities while reducing energy costs. K-12 Education efficiency projects also improve the learning environment for students and teachers.*

## PLAIN TALK

Our team members address the energy efficiency opportunities on your priority list. We offer sensible project solutions that combine astute technical insights with self-funding financing packages.

- + TEN delivers high-impact energy efficiency projects that reduce costs and modernize schools.
- + Projects save money to address budget pressures, while enhancing the learning environment for students and teachers.
