

CASE STUDY:

EGCC

Eastern Gateway
Community College

CAMPUS MODERNIZATION PROJECT

Eastern Gateway Community College used existing energy costs as a facility modernization fund, implementing comprehensive energy efficiency measures that also improved the campus' environmental profile.

PROJECT SNAPSHOT

Eastern Gateway Community College utilized a performance contract to implement comprehensive energy efficiency and campus modernization measures. This project was funded entirely by utility savings.

CUSTOMER PROFILE

Eastern Gateway Community College serves Ohio students in four different counties, offering degree programs in business technologies, information technologies, engineering technologies, health, and public services. The college embraces an open door admissions policy.

This is a wonderful investment in the Jefferson County campus. This project will help the campus move forward on measures to improve the environment while reducing energy and operating costs. It is a win-win for the college and the community.

— Laura Meeks, Eastern Gateway President

PROJECT RESULTS

\$1.7 MILLION

Project Cost

\$84,000

Rebates applied for and secured

\$137,000

Guaranteed utility savings

TECHNICAL COMPONENTS

- Complete lighting upgrade
- Water system replacement
- Chiller plan replacement
- New building automation system
